

BOGUS CHECK MAN IS CAUGHT; IDENTIFIED AND HELD FOR COURT.

In Spite of Damaging Testimony, Arthur Glenn Retains His Nerve and Jokes With Accusers.

HIS GAME WAS VERY CRUDE

Victims Take Stand and Tell How They Were Worked by One of the Oldest of the Graft Game—Attempt Made to Implicate Girl.

Maintaining the colossal nerve which enabled him to "work" nearly a dozen local merchants, Arthur Glenn of Uniontown this morning faced his accusers, denied everything and was held for court to answer the charges of passing worthless checks and forging the same.

Glenn's game was so dead easy that his victims are still wondering why they fell. In nearly every instance the checks were for \$17, or thereabouts and each was written, in a scrawny hand, on the counter checks of the First National Bank of Connellsville. The work was very crude.

Glenn was arrested last evening by Constables I. P. Crossland and J. V. Mitchell. He was seen driving in a buggy by Mrs. John Barnes of Snydertown, whose brother-in-law, James Barnes, was one of his victims. Mrs. Barnes went home, notified her husband and word was sent the officers. They landed their man just as he had driven to Meriville street to put away his rig for the night. He had driven from Brownsville yesterday.

Hearings on all the charges were held before the two local justices this morning. Justice of the Peace Frank Miller had the first opportunity at Glenn. He had two informations for false pretense, one for forgery and another for conspiracy, in which Vica Collins, a 17-year-old woman, was named as co-defendant. The last charge was not sustained by the evidence.

The information in which Morris & Hooper charged false pretense, was the first case called and Robert Norris was the only witness. Mr. Norris said Glenn, whom he identified as the man representing himself to have been H. F. Hartman, came into his store on the evening before election day and wanted a pair of shoes for his wife. He got them, gave a check, received the change and disappeared. The shoes were later found in the possession of Vica Collins. Glenn merely denied the charge and let it go at that.

"You're guilty," declared Justice Miller as Mr. Norris left the stand. The forgery case was then brought up and resulted in the defendant being held for court. Ed. Bauer was the prosecutor. He declared Glenn, whom he knew as Smith, had forged his name to several checks. He identified one of the checks. He did not see Glenn write them but declared the signature was a forgery. On this check the writer had written E. A. Kizer. Kizer does not spell his name that way and has no initials.

The conspiracy charge was then tried. It being alleged that Glenn and Miss Collins conspired to defraud Norris & Hooper. The shoes were found where she had been working as a domestic. Miss Collins was questioned and answered in a direct manner. She said she gave Glenn, to whom she had been introduced when he was going under the name of Smith, \$4 to buy a pair of shoes. He brought them back and \$3.50 was marked on the box. She said she didn't ask for any change because she owed him 50 cents. Mr. Norris asked if it wasn't true she had given Glenn \$20 with which to buy her a watch. She said that was so. This was all the evidence. Miss Collins comes from Mill Run and is the daughter of Nori Collins, who was drowned in Indian Creek four years ago. The conspiracy case before Justice Miller was dropped as there was no evidence to sustain the charge.

E. N. Stahl of the Stahl-Brant Plumbing Company, then took the stand when his case was called. He was one of Glenn's victims and identified the defendant. Glenn bought a stove from Stahl, gave a check and received the change, but never came for the stove. The check, like the others, was worthless. Glenn was held on this count.

The case was then adjourned to the office of Justice of the Peace William P. Clark where Glenn was successfully tried on informations made by the Connellsville Machine & Car Company, J. Levy, Louis Featherman, L. Rappert and James Barnes. He was held in each case.

Constable Mitchell also endeavored to implicate the Collins girl in the case and made a conspiracy information against her which is still pending. According to Mitchell, Glenn went to Mercertown and said he was to be married and expected to move.

WANTS A DIVORCE

Husband in Serving Term in Penitentiary for Poole Robbery.

Mrs. Mamie Catherine Greenwalt of Latrobe, formerly of East Scottsdale, has filed an application for a divorce from her husband, Robert Greenwalt, on the ground that the latter is serving a term in the penitentiary.

They were married at Indian Head on November 14, 1905, living for a short time in Bullock township and later in East Scottsdale. While living at the latter place and less than a year after their marriage her husband with several others were arrested for the robbery of the residence of William Poole of Pennsylvania. The men were convicted and given 8 year terms in the penitentiary. Mrs. Greenwalt now wants a divorce.

HAAS HAS A LIVE BEAR; SHE'S A PERFECT LADY

Hotel Man Acquires Pet Which He First Saw On Canadian Hunting Trip.

"Andy" Haas, the smiling proprietor of the Water street hotel, is smiling some more. "Andy" has a live bear and she is a lady. Her name is Louise.

"Andy" vouches for the conduct of Louise, because, as he says, he has had the pleasure of her personal acquaintance for over a year. His first met Miss Louise on her native haunts, while he was in Canada on a hunting and pleasure trip. That was when she was a pup—big, fat, and cub and "Andy" promptly fell in love with the lady. The affection was mutual and everybody is happy. Louise was secured by another man.

A few days ago the transfer of Louise was made from her former owner, W. E. Shaw of the West Penn railway system. She is about two years old, very playful and is bound to grow some more as is the case with black bears at that age. Temporary quarters have been fixed up for Louise in the large back yard of the hotel where she has been provided with a small Queen Anne cottage about four feet high, and decorated with white wash, a la Africanus. Louise is attached to one end of a stout iron chain to prevent her from walking in her sleep. She is frequently visited by a large and enthusiastic group of admirers whose numbers are growing daily.

During the first day of her change of habitation, Louise climbed to the top of the brick wall, bounding the hotel court. On the other side were sundry persons who did not know a bear was on the premises. Included among them was a dusky gentleman who does odd jobs of whitewashing and painting. While, as he says, his conscience is perfectly good, he was surprised at what he thought was an apparition from some other world straightaway there was a Marathon race in which everybody won.

But now they are all used to "Andy's" bear, who will eat a lump of sugar out of your hand—if you have the sugar.

BELLEVERNON IS UP AGAINST HEALTH BOARD

Violation of Laws May Result in the Town Having to Pay Dearly for It.

BELLEVERNON, March 13.—Because it built extensions to its sewer system within the last three or four years without permission from the State Board of Health, Bellevernon borough has been called upon to explain its actions to that body. Similar action is likely in North Bellevernon, where much longer extensions have been made. Delay in making a report or getting the matter fixed up with the health authorities throws the municipality liable to a fine of \$50 a day for each day such sewer is maintained. It has only just come to the knowledge of the health commissioner that sewer extensions have been built here since the law of 1905, which requires that permission must be obtained before any sewer can be laid. A party of officials is now at work here making an investigation of conditions in the Monongahela river water shed, and upon learning the facts Commissioner Samuel G. Dixon immediately sent a letter of inquiry to council. Nothing has yet been done.

Ann Holliday was also charged with taking too much "distilled damnation" on board last night. She was warned to get out of town on the next car.

BLACK HANDERS KILL DETECTIVE.

Joseph Petrosino Was in Italy Gathering Evidence.

For This Reason New York Officer Was Murdered—Finds For Expenses Was Donated By Many of Gotham's Leading Financiers.

United Press Telegram.

ROME, March 13.—Joseph Petrosino, an Italian detective of New York city, was shot dead in Palermo today by agents of the Black Hand Society, according to messages from that place received here according to the dispatches, had been sent to Italy by the New York Police Department to gather evidence against the leaders of the Black Hand, who are believed to have their headquarters in Italy and conduct their operations throughout the world from their central office.

The police say Petrosino was murdered for certain papers he had in his possession, correspondence between the Black Hand headquarters and its New York agents. The detective was suddenly attacked while walking along the street. They opened fire on him but before he fell they threw his own revolver and engaged in a duel with his assailants. It is believed he shot one man.

Only three people in the United States know just where Petrosino was in Italy. They were his wife, Commissioner Bingham and Deputy Commissioner Woods. Bingham furnished him funds to make his trip from a secret fund contributed to the Commissioner by leading financiers, said to include Andrew Carnegie, W. K. Vanderbilt, E. H. Harriman and Morris K. Jessup.

HALFHILL IS BACK; SLATED FOR CITY JOB?

Return of Former Street Commissioner at This Time is Regarded as Significant.

The return to Connellsville of Joseph Halfhill just a time when chances in the municipal government are to be made is regarded as significant in political circles. Since Halfhill was deposed some two years ago as Street Commissioner, he has been working near Latrobe for the Marletta and Stillwagon interests.

Coincident with the return of Clair Sullivan to power in Town Council comes Halfhill back to Connellsville. This has caused some people to sit up and take notice.

It is generally believed that the outcome of the elevation of Clair Sullivan to President of Town Council will mean the appointment of William McCormick as Chairman of the Street Committee and Halfhill as Street Commissioner, succeeding J. W. Stouffer. Mr. Stouffer has served two terms under D. F. Girard, who was Chairman of the Street Committee during that time.

INDEPENDENT SCHOOL DISTRICT

It is the Annual Election of School Directors and There Are Five Candidates—Court Fixed the Date Years Ago—The Candidates.

Although it is rather unusual to hear of an election being held on the 13th of March, one is being carried on at Bridgeport near Scottsdale today. Fayette county is slightly interested in the election, although the greater territory is located in Westmoreland county.

It is the annual election of School Directors for the Independent School District of Bridgeport. There are five candidates and two are to be elected. Unlike other elections no political matters are not even required to close while they are being carried on. The candidates for office are: C. S. Ebenhart, George Grey, W. S. Ramsey, Dr. J. M. Jackson and E. E. Stonacker. The district has been an independent one for upwards of thirty years, but few people are aware of the holding of elections in March. The law, however, is being complied with to the letter. Several well known politicians and educators were asked regarding it today and were surprised to hear of an election at this time of the year. The school law, provides, however:

"That when an independent school district shall be established, the proper court shall, in the decree, therefore, shall designate the time and place for holding the annual elections of directors, teachers, and appoint two persons to hold the first election at the time appointed; thereafter, who shall give ten days' notice thereof, by printed or written handbills, put up at not less than six public places in the district, at which election six directors shall be chosen, two for three years, and two for two years, and two for one year, then next ensuing and two annually thereafter shall be chosen for three years at the annual election to be called and held by the president and secretary of the board at the time and place in the manner in said decree thereof appointed; said election, in all other respects, shall be conducted with the existing school laws, and that in independent districts, established or hereafter to be established by the Legislature, without specifying the time and place of selecting directors, the first election shall be held at such time and place within a proper period as shall be specified by written or printed notices, thereof, but upon not less than ten public places therein, signed by not less than five taxable citizens thereof, and giving ten full days' notice of such election; and subsequent elections shall be held at such time and place, annually, as shall be designated by similar notices, signed by the president and secretary of the board; said elections in all other respects, to be held and conducted in the manner in this section before provided."

INDEPENDENT DISTRICT WANTS IN TOWNSHIP

Finds Burden of Taxation Too Heavy, and Seeks Relief.

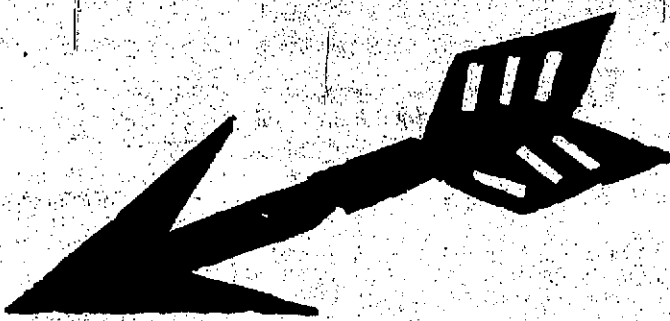

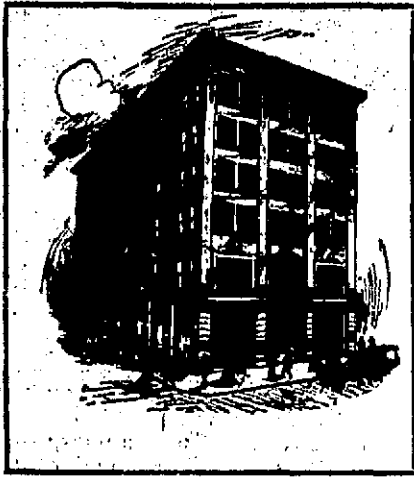

Township Opposes Change.

A bill has been introduced in the assembly for the repeal of an act passed in the year 1873, by which the Leverage Independent school district, comprising parts of Rostraver township, Westmoreland county, and of Fayette county, was instituted. The passage of the bill would throw the district back into the township of which it originally constituted a part. Petitions are being circulated in this vicinity against the repeal of the act, for no welcome will be extended by the people of the township.

The motive of the people of the district is a financial one. The new mining town, Pinedale, is in the district, and new school houses must be built for the increased number of pupils. There is no money in the treasury, and the people have been paying a 7-mill school tax, while those of the township pay only 2 mills. And while a very large part of the township is underlaid with rich seams of coal, these seams are worked out beneath the district and the Pittsburg Coal Company and other holders of coal pay no tax into the treasury of the district, while they pay large sums into the township coffers. The remonstrance of the people of the township against the return of the district will be presented by Assemblyman Rohack of Monaca.

THE TARIFF AND WAGES

AND THE COST OF LIVING.

In revising the tariff law the statesmen at Washington have in view two things, namely, Revenue and Protection; revenue for the needs of the Government, and incidental protection to American industry.

The tariff is a most-sided subject, and in its adjustment the first care of the Congress should be the welfare of the whole people, a large majority of whom are what Colonel Bryan loves to call the Common People.

It is already hinted in some quarters that any radical reduction of the tariff will compel manufacturers to reduce the wages of their workmen.

We hope that nothing like this will be attempted, and it is vastly to the credit of the large corporations that their policy is against it.

While wages are higher than they ever were in good times, the necessities of life have more than kept pace. The products of the mine and mill have tumbled in price, but those of the farm are higher than ever.

The new coke car of the hopper variety seems to be hopping into favor at railroad speed.

When a sporting record is smashed a new one rises instantly from the shattered remains. We suspect that the fabled phoenix bird was just a record itself.

The West Virginia University encephalitis students are taking some practical lessons in the Connelville region mine.

The West Side people are entirely satisfied with their Consolidation bargain. Some Connelville citizens should take notice.

It will be far better for South Connelville people to remain a part of the township than to set up the costly experiment of a borough government.

The experience of lay-offs in the coke region illustrates anew the old adage, "Satan finds mischief for idle hands to do."

Everybody seems to be hard up just now, not excepting Uncle Sam and Father Time. In the discussion of the tariff measure speech should not be too free. The country cannot afford it.

We may expect a fly time in the good old summer time.

The fact that the judges of the Superior Court heard the Capital Trimmers' appeal sitting on 200 chairs does not necessarily disqualify them from determining the case, but on the contrary ought to furnish them with important evidence, especially if the chairs were disassembled.

Business may be dull, but the thermometer has been active all winter.

The anthracite operators seem to be standing pat. They have the advantage of standing on the award of disinterested arbitrators.

Count Zappella has engaged to fly across the Atlantic via the original Columbus course. If he is successful the Zappella line will become immensely popular.

Andrew Carnegie has called upon President Taft, but the talk was not on the tariff, but on golf.

It seems that a soulless corporation has parted two Greenwood pence. The trouble seems to be that artificial beings, having no hearts, are not susceptible to the tender influences of Cupid and cannot sympathize with Love's Young Dream; otherwise they would provide employment for married men at home and make the bachelors do all the poring.

If Tennessee is going to establish the doctrine that all editors ought to be shot on sight it is to be hoped that the editors will be given the same chance other game has and be protected at certain periods of the year with a closed season.

Live stock is still good value in this section.

We may yet be proud of the fact that we are the home of Connelville glass bottles. The glass brick is becoming increasingly practical as well as highly decorative.

State's evidence is admissible, but always under suspicion. However, almost as much may be said for alibi unless it is established by the evidence of disinterested witnesses.

The Connelville coke operators are standing pat as to price. They ought to do so. Coke prices have been on the bottom for a year past, while iron and steel prices have been floating on top.

of the State which have now taken on the form of corporations for convenience sake.

We are in favor of the corporations paying taxes on all the real estate they own, and we believe they do this; but we are not in favor of one combination of business capital paying taxes which another combination is exempted from paying. In other words we do not think it is fair for a corporate partnership to pay taxes on its capital when a private partnership pays none. Yet the corporate partnership already pays a special tax, and it is now proposed to materially increase that tax. It is bad enough now. We most certainly object to making the discrimination any worse.

The Observer Company is a corporation, yet not long since they were private partnerships, and they are practically private partnerships today.

In objecting to any further increase in the arbitrary tax on corporations, we speak for the Observer, for ourselves and for justice generally. Against equitable taxation we have no objections, but against double or triple taxation we do most mightily protest.

The movement against Uncle Joe Cannon is a movement against the Statesman, not against the man. The inventions of Joe Cannon have served the country effectively in critical times, but there are not the embodiment of the spirit of the age. Search is free only in the Senate, and there it is often too free. It will perhaps be best to keep some middle course, but whatever is done the opportunity of the minority to talk a measure to death should be relentlessly eliminated.

The Morton will case is settled not yet nor soon.

Down to Work as an Editor.

Our only living ex-President sets a fine example for his new career upon his retirement from office. He doesn't lose any time in getting down to work as a private citizen, and his first editorial in the Outlook makes him as a leader from the start in his chosen vocation.

A Gem of an Editor.

Teddy lets no grass grow under his feet. Concluded with his leave of the White House we perceive his advent as an editor. His first article in the current Outlook is a gem of journalism. It ought to be framed and hung in every editorial sanctum.

ALMOST A NEW STORE

So many new goods here that this looks almost like a new store. Every department has almost an entire new stock to show. Pretty goods and stylish garments here that we are anxious to have you see. Bought them for you and want your opinion of them.

THE DRESS GOODS STOCK.

Prices start at 50 cents and from that on up to \$5 and \$15 the yard. Plenty of individual patterns here if you want something particularly your own. Newest shades and newest fabrics. Call particular attention to the showing of goods at \$1.00 the yard.

DRESS TRIMMINGS.

All the new bands and laces. Prices from 5 and 10 cents up to as high as you care to pay. We call particular attention to the completeness of this trimming stock. Bought of course to correctly match the dress goods and silks we have here. Its best recommendation is the number of people who rely upon this department no matter where the material may come from.

NEW WASH GOODS.

Among the new numbers in Wash Goods to show this week are: "Pique" Pique at 15 cents the yard. Printed Silk Crepe at 50 cents the yard. Serpentine Crepe in white and solid colors at 20 cents the yard. Genuine Irish Dimities at 25 cents the yard, and Anderson's Glenghams at 25 cents the yard. Also Pawnee Madras at 25 cents the yard and Pawtuxet Madras at 20 cents the yard.

NEW SILKS.

Come and see them. No use trying to describe the beauties of these silks here. Whether you want to buy or not, come and see this showing. This store never had as pretty a display of silks. Never so many beautiful patterns and that is a reason for bringing you to come now. As for prices we've silks on both sides of the dollar mark but to be particular about any one price we call special attention to the showing at \$1.00 the yard. Don't believe that you find silks like these marked at \$1.00 any place else in this vicinity, but that's something we leave for you to decide after you have seen the silks.

MADRAS CURTAINS.

Last week we had a window filled with these curtains and colored madras by the yard. Curtains started at 75 cents the pair and from that on up to \$3.00 the pair. Goods by the yard priced at 15 cents, 20 cents and 30 cents the yard. Some as pretty patterns and colorings as we ever had to show.

THE NEW SUITS.

Suit prices start at \$20.00 and from that on up to \$50.00. Don't believe that if you have a suit want you can afford to miss seeing the suits we have here. Believe that we are doing the suit business on a narrower margin of profit than most stores can afford; and that means saving you money and we ask you to come and see the suits and learn the prices and then you'll know whether this statement is correct or not. You have no right to buy a suit here if you can buy as good a one for less money elsewhere. Now, having this proposition, you've no right to buy elsewhere if you can buy as good here for less money. Are not both these statements true. It's a problem for you to solve and the suits here will tell their own story if you will come and see them.

CARPETS AND RUGS.

Think of the service you expect from the rug or carpet you intend buying this spring. Then if you are stranger to this carpet department ask your neighbors about the carpet we have here. You'll not have to ask more than one or two before you find out all about this carpet department of ours. The best advertisement we have is the carpets we have sold in years past, and we want the carpet we sell this season to help sell more carpets in the years to come.

BROADWAY BANK AGAIN CHOSEN.

Of Three Institutions It Offers Best Interest for Borough Funds.

WILL GIVE FOUR AND ONE TENTH

James B. Hogg Re-elected Borough Engineer By Vote of Nine to Two. Much Argument Precedes Awarding of the Money.

SCOTSDALE, March 12.—The Town Council met at a pace for the handling of Borough funds last night in a called meeting when, by a vote of 9 to 2, the Broadway National Bank was again made the depository of the Borough funds for the coming year, that bank of three financial institutions of town having made the best bid for the funds. They have previously paid interest on funds, when they were named as the depository. By a similar vote James B. Hogg, a little later, was elected Borough Engineer, something that those who know him and his work and his high character will recognize as the best part of wisdom. His election was held up at the regular night of organization.

When Council convened with President W. H. Sleight in the chair there were present Councilmen J. F. Berry, W. H. Brown, William Butler, A. P. Byrne, J. F. Hardy, M. L. Haines, H. G. Morris, J. W. Pittman, J. J. O'Connor and T. W. Porter and L. R. Elker absent.

The bond of Harry Laughrey the newly elected treasurer of the Borough was presented to Council. The instrument was dated March 11, in the sum of \$20,000.00 with John Laughrey and John S. Parker as the sureties. The provision of the bond stipulating that no action should be taken on it unless within a period of one year and three months from its date, caused an objection and lengthy debate. The sureties as every member of Council said were altogether satisfactory, but they did not like the idea of the bond expiring so quickly, and probably even before an audit could be made and certainly before the period of appeal from the audit could expire. Mr. Laughrey was present and said that the form was simply that the bond might not be a perpetual one, and that any change satisfactory to the Council and Solicitor would be made. The matter was settled by arranging that the bond should extend three months of liability after the time allowed for appeal from the yearly audit would have expired. Consequently the bond will be rewritten and submitted to Attorney F. B. Folk for his approval as to form.

The matter of the depository came close upon the heels of the bond question, and Mr. Haines and Mr. Butler opened the ball with a motion that the Treasurer should be left free to select his own depository, putting the funds where he saw fit. This precipitated a lengthy debate in which nearly every member took a hand. Mr. O'Connor said that interest having been previously paid established a precedent and a motion of the last meeting that bids should be taken from all banks caring to bid made it impossible to consider the motion. He further stated that in Scottdale where the Treasurer is elected by the Council and not by the people the Council cannot delegate powers to the Treasurer. There were several bids on the table, and a motion of the last meeting having been read that the Finance Committee was to ask for bids on the depository. Mr. Byrne remarked that the bid had been done in good faith, that a reluctance of the action seemed to him to be out of place and for his part he believed that the bids should be opened and read and then if Council wanted to pass a motion giving the Treasurer freedom to choose where he wanted to deposit the Borough funds they could pass it with a clear understanding of what the various banks offered them. Mr. Haines answered that if the Council wanted the depository the responsibility is lifted from the Treasurer's shoulders and shifted to the shoulders of Council. He continued that if the Council left the Treasurer free the Borough would receive interest, as much as any institution in town will pay.

Mr. Pittman of the Finance Committee, and the maker of the motion to take the bids upon the depository, said it was his idea to let the funds to the best bidder. Mr. Butler brought up the question of responsibility of the bondmen in the matter and argued against any negligence that might imperil the funds. Mr. Berry spoke along the same line and Mr. Martz said that previously he never saw any one take a chance to bid on the funds. Mr. Brown stated in favor of the letting of the funds in the highest bidder. Mr. Byrne said that Council could rescind the action of the previous meeting in asking for bids but when they did that they would come right back to the bid offered previous to that motion. "Do I understand that the bid tonight from the Broadway Bank is the same as offered the other night?" asked a member. It was answered that when the bid was given President Sleight at that meeting he was told that another one might be put in before the next meeting. The bid, still closed with its wax seals, was in evidence. Mr. Sleight corroborated the statement. Mr. Sleight ruled the motion to make the Treasurer free in

selecting his depository as out of order, since it conflicted with the motion of the previous meeting in asking for bids which had been made in good faith by the Finance Committee and the institutions bidding. The matter of bonding was further gone into and it was agreed that if the Treasurer gives his bond to the Borough and the bank its bond to the Treasurer the proposition on the treasurerly going to the highest bidder was then voted on all but Messrs. Haines and Butler voting "aye." The bids were then opened, and were from three institutions: The Scottdale Savings & Trust Company, the Scottdale Bank and the Broadway National Bank, the First National Bank not bidding.

The Savings & Trust Company bid four per cent on the average balance in the Savings Fund, General Fund and Water Fund.

The Scottdale Bank bid four per cent on the balance carried in the Savings Fund, two per cent on the balance carried in the General Fund or three per cent on the average balance in both Savings and General Funds. The interest to be computed at the end of each calendar month as shown on the bank's ledger.

The Broadway National Bank bid four and one-tenth per cent interest on the daily balances of all the funds of the Borough, providing that the funds were deposited with the Broadway Bank.

A motion was then passed that the balances should be computed every month. The Broadway Bank by the previous motion was declared the depository.

Mr. Martz of the Sewer Committee told Council that he had asked Engineer Hogg to come over and meet with a number of the Councilmen and talk over the Comprehensive Sewer Plan being made for the State and that Mr. Hogg explained the matter and said that the work was about two-thirds done. He was instructed to contact Mr. Hogg.

The matter of electing the engineer was brought up and the numerous applications for the position were read. On the roll call Messrs. Berry, Brown, Butler, Byrne, Fitzsimmons, Martz, O'Connor, Porter, and Hardy voted for J. B. Hogg, and Mr. Haines and President Sleight for L. D. Evans.

In honor of her aunt, Mrs. W. J. Lowmutter and cousin, Miss Grace Moore, who leaves for Berlin, Germany and Mrs. Robert Kelly, who leaves for her new home in Tampa, Fla., Mrs. Harry Carpenter was hostess yesterday afternoon at a large and handsome luncheon at her pretty home on South Pittsburg street. The guests included only the most intimate friends of the three ladies. A color scheme of red and green was carried out with exquisite taste in all the appointments. A huge bouquet of red carnations formed the attractive centerpiece while the place cards were dainty Colonial figures. The favors were pound boxes of bonbons.

Covers were laid for Mrs. Lowmutter, Mrs. Kelly, Miss Moore, Miss Gertrude Sharpe of Buckhannon, W. Va., Mrs. T. J. Mitchell of Uniontown, Mrs. J. S. Laughrey, Mrs. Anna Smith, Mrs. S. J. Worth Knowing.
To remove pimples, blackheads, blotches and all forms of skin eruptions, is according to a well known Physician, a very easy matter; he says that many are afflicted with some one of the above ailments, and are subject to a great deal of embarrassment on account of the unsightly appearance which they present, and recommends the following simple harmless and inexpensive treatment: Go to your druggist and get this prescription filled: Clearol one-half ounce. Ether one ounce, Alcohol seven ounces, mix, shake well and apply to the parts affected eight or ten times a day, allowing it to remain on the skin at least ten minutes, then wipe off the powder from the skin. Use a soft cloth or sponge in applying the mixture and in from ten days to two weeks your face will be smooth and clear as a marriage bell. Get the Pure Clearol, which is only put up in one-half-ounce packages. Ask to see it.

Shows That Are Booked.

Shows Coming—The Soisson.

March 17, matinee and night.
"The Sunny South,"

"The Wolf," March 27.

Casino.
Monte Carlo Girls, burlesque, March
14.

The big theatrical attraction for
next week at the Soisson theatre is
"The Time, The Place and the Girl,"
and it promises to bring a record break-
ing audience to the playhouse. It will
be followed on March 25 with Travers
Vale in "The Sunny South," one of the
prettiest and sweetest little dramas
now travelling.

"The Wolf," a bit of exceptional
dramatic skill comes to the Soisson
on March 27. It is one of the brand
new plays of the season, having won
its laurels in New York playhouses
quickly and deservedly. It will be one
of the plays that produces absorbing
interest and it bears the approval of
all classes of theatre-goers.

A bit of burlesque is also provided
for those who care for that form of
entertainment. "The Monte Carlo
Girls" are the attraction billed for the
Casino on March 14. "The Monte
Carlo Girls" have been here before
and have pleased good houses.

"The Time, The Place and the

EULALIE JENSEN,
The Widow in "The Time, The Place
and the Girl."

"Girl," which comes to the Soisson,
matinee and night, March 17, is not a
musical comedy, but a "comedy with
music," that is to say, its dramatic
values would be sufficient to provide
an evening's entertainment, even if
there were no songs to lighten the
proceedings. It is legitimate comedy,
with a sane plot and situations, en-
hanced by two or three delightful re-
productions of original and amusing
character types.

The most interesting characters in
the piece are those of "Happy"
Johnny Hicks and Molly Kelly. Hicks
is a bright, goodhearted young gen-
tleman, full of sentiment. Molly is a nurse,
sophisticated and with a perfect mas-
tery of the gentle art of repartee.
These two meet in a Virginian moun-
tain "rest cure," whither Hicks has
fled with his rich elum, Tom Cunn-
ingham, who is in trouble, and they fall
in love. It happens that Cunningham
is in a controversy with a card sharp in
Boston smashed his opponent with a
wine bottle. When the officers of the
law follow them to their hiding place
at the sanitarium, Hicks shoulders the
blame—only to find that the injured
man is the black sheep brother of
Molly, the nurse.

Though the piece could be played
without music, Mr. Howard's pretty
songs make it doubly attractive. There
are a dozen musical numbers in the
play, all fitting and descriptive, but
never in the way of the plot develop-
ment. The particular hits are "Thurs-
day Is My John Day," "It's Lonesome
Tonight," "Blow the Smoke Away"
and "Dixie, I Love You." The fifty
prettiest chorus girls who have ever
been seen in one show are found in
"The Time, The Place and the Girl,"
as are also the famous \$1000 beauty
brothers, the latter being 12 little girls
who dance with an abandon of emo-
tion and enthusiasm and an amount of
ginger which has never been equaled.

Threatens to Blow Up Statehouse.
Columbus, O., March 12.—Albert
Freiner of Newark, who claims to be
a brother of John Freiner, member of
the legislature, created a panic in a
saloon by pulling out a quantity of dy-
namite from his pocket and announcing
that he was going to blow up the state
house. He was arrested.

ed through a window at his home and
saw his wife and Leutz in a loving at-
titude; on April 21 he found Leutz
concealed in a closet at his home. He
also says he expects to show by wit-
nesses that Leutz and his wife were
frequently seen together about Union-
town, and that his wife now refuses
to speak to him, and refuses to per-
mit him to go home, making threats
against him; but that on the contrary,
Leutz may visit there as often as he
desires and is freely admitted.

On the application of a number of
Uniontown citizens, presented by At-
torney C. A. Rhoads, Charles H. Cox

was yesterday appointed by the court
as one of the borough auditors to fill
the vacancy caused by the resigna-
tion of P. D. Howard.

The court yesterday appointed Jas-
per N. Clommer as register assessor
for Springhill No. 2, to fill the vac-
ancy caused by the death of Nibho,
his clerk, who was elected in Feb-
ruary.

Attorney S. R. Goldsmith yesterday
filed suit in behalf of the Young Iron
& Metal company against A. Overholt
& Company to recover \$175 for an en-
gine alleged to be retained by the de-
fendant company. It is claimed that
the defendant company purchased the
old distillery building at Broad Ford
from the plaintiff and then made an
agreement that it was to use a "Cor-
tina engine" until its new grain "ele-
vator" was erected. The engine is
still retained by the company and the
plaintiff demands the sum mentioned
with interest from August 10, 1908.

Tonsiline The Germ which causes
Quinsy Prevents the deeper
Quinsy

Many such letters as below prove TON-
SILINE's value in preventing Quinsy.
Gentlemen:—I have been subject to
Quinsy for the last fifteen years and have
simply had to suffer from ten days to two
weeks with it at every attack, never
having been able to find a preventive,
until I commenced using TONSILINE.

Up until a year ago I had had ten at-
tacks of Quinsy, but have been able to
avoid it twice since that time by the use of
a 25 cent bottle of your remedy. Hoping
that others similarly troubled will profit by
my experience, and thanking you for what
your TONSILINE has done for me, I re-
main, Yours very truly, E. T. KEENAN,
Chief Clerk Auditor's Office, C. A. S. B.,
Cincinnati, Ohio.

Sufferers from Quinsy should
always have TONSILINE ready for
instant use on first sign of Sore
Throat, Stomach or Throat trouble.

Table Cloth Values That Are Remarkable

ONE HUNDRED MILL-ENDS, 2 YARDS, 2 1/2
YARDS AND 3 YARD LENGTHS AT A THIRD
LESS THAN THEIR WORTH.

Flax idealized both as to use and beauty; flax commercialized in a way that
means the best value in the finished article that your money ever bought. These
short lengths of table damasks come to us direct from the looms. They're mill-
remnants; fresh, clean, shining damask in beautiful new designs and just table
cloth lengths. These are not soiled, wrinkled, store remnants, but come to you
fresh from the looms of the best linen mills. Every design brand new. Another
advantage, aside from economy is the vast number of designs, nearly forty differ-
ent patterns to select from! We've spread these immaculate linens along our
main aisle counter. Here you'll find them just as they came to us from the maker.
Their value range is from 75c to \$1.50 a yard. Our prices are a third under value.

Hemstitched Chiffon Veils

Worth \$1, \$1.25 and \$1.50

These veils are shown here in all wanted shades. They are not old stock, as
you might surmise from the radical nature of the pricing. Every veil is spic span
new; not one of them has been in the store more than six days. They are shown
in plain hemstitched chiffon in every desirable shade and in chiffon having chi-
nille dots. Every woman in this town knows that she's never seen hemstitched
chiffon veils advertised, previous to this announcement, at so low a price. We'll
show these veils in our window and you'll easily see the remarkable value they
represent.

They are admirably adapted for street or evening wear, according
to the color and the weave. The variety is very satisfying as the
purchases included nearly one hundred veils, all of them of a quality
and design that will fill the wants of any woman who desires a stylish
veil, and they're absolutely worth \$1.00 and \$1.50. OUR PRICE 49c.

One Hundred Dozen Huck Towels

20x38 Inches in Dimension and Worth 15c

The size of these towels combined with the selling price, 10c, tells the whole story for you've never
seen a towel offered at 10c as large as this one.

You'll find these displayed in our
basement store. These towels are of
good quality huck and have a "fast
color" red border, a slightly durable
towel at a mighty little price.

10c

Measure any towel you have at
home that you've paid ten or even fifteen
cents for, you'll find it falls sadly
short of the size of these towels.
